AMELIA NAIDOO

Junior Software Developer | Web Application Development

Quatre Bornes, Mauritius | amelia.naidoo@example.com | +230 5250 1001 | linkedin.com/in/amelia-naidoo

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building responsive web applications using JavaScript, React, Node.js and SQL. Comfortable with Git, REST APIs, debugging and writing maintainable code. Seeking an entry-level development role with opportunities to learn from an experienced engineering team.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, HTML5, CSS3
Frameworks and tools: React, Node.js, Express, Git, GitHub, Postman
Knowledge: REST APIs, responsive design, debugging, unit testing basics, Agile teamwork, relational databases

PROJECTS

Campus Events Portal | React, Node.js, Express, PostgreSQL, Git
Built a responsive event listing and registration application. Integrated REST endpoints, added client-side form validation and used SQL queries to store registrations. Collaborated with two classmates using Git branches and pull requests.

Personal Budget Dashboard | JavaScript, HTML, CSS
Created a dashboard to categorise expenses, filter transactions and display monthly totals. Fixed input-validation bugs and tested common edge cases.

EDUCATION

BSc Computer Science — University of Mauritius | 2025
Relevant modules: Web Development, Database Systems, Software Engineering, Data Structures

EXPERIENCE

Software Development Intern — Island Digital Studio | Jan 2025–Apr 2025
Assisted with front-end updates, reproduced bugs, tested fixes and documented issues. Used Git for version control and participated in weekly sprint meetings.

ADDITIONAL

Strong problem-solving and communication skills. Comfortable receiving code-review feedback and learning unfamiliar tools. References available on request.
