DANIEL WONG

Graduate Developer | JavaScript, Python & API Integration

Rose Hill, Mauritius | daniel.wong@example.com | +230 5250 1002 | github.com/danielwong-dev

PROFILE

Entry-level developer with a Diploma in Software Development and a portfolio of academic and personal projects. Experience with Python, JavaScript, SQL, Git and API integration. Enjoys troubleshooting, collaborating with teammates and turning requirements into practical software.

TECHNICAL SKILLS

Programming: Python, JavaScript, HTML, CSS, SQL
Tools: Git, GitHub, VS Code, Postman
Concepts: functions, object-oriented programming, CRUD operations, REST APIs, debugging, manual testing, responsive web design

SELECTED PROJECTS

Stock Tracker Web App | JavaScript, Node.js, SQLite
Created a small inventory tool with item search, add/edit/delete operations and input validation. Connected the interface to API routes and used SQL to persist records. Documented setup steps in a README.

Weather Dashboard | HTML, CSS, JavaScript, REST API
Built a responsive dashboard that retrieves weather data from a public API, displays loading/error states and handles invalid city searches.

Python Task Manager | Python
Implemented task creation, filtering and completion status, with basic automated tests for key functions.

EDUCATION

Diploma in Software Development — Mauritius Institute of Training and Development | 2024
Relevant topics: Programming Fundamentals, Web Technologies, Databases, Software Testing

EXPERIENCE

IT Support Trainee — Coral Bay Services | Feb 2025–Jul 2025
Investigated user-reported issues, documented reproducible steps, performed basic system checks and escalated software defects to the development vendor.

OTHER

Team-oriented, organised and receptive to feedback. Familiar with Agile concepts through a final-year group project. Available for full-time employment.
