SARAH PILLAY

IT Graduate | Junior Web Developer Applicant

Curepipe, Mauritius | sarah.pillay@example.com | +230 5250 1003

SUMMARY

Recent Information Technology graduate with foundational knowledge of web technologies and databases. Interested in beginning a career in software development. Has completed classroom exercises and one small website project; eager to improve through practical work and mentoring.

SKILLS

HTML, CSS, beginner JavaScript, basic Python, introductory SQL, Microsoft Office, troubleshooting, documentation, teamwork. Has used GitHub to download and submit coursework but has limited experience with branching or collaborative version control.

PROJECT

Student Club Website | HTML, CSS, basic JavaScript
Created a three-page static site for a college club with an event schedule and contact form layout. The form is a visual prototype and does not submit data to a server. Tested the pages in a desktop browser.

EDUCATION

BSc Information Technology — Open University of Mauritius | 2025
Relevant modules: Introduction to Programming, Information Systems, Database Fundamentals, Networking

EXPERIENCE

Customer Service Assistant — Central Retail Ltd | 2023–2025
Handled customer enquiries, maintained accurate records and worked with colleagues to resolve issues. No formal software development employment to date.

DEVELOPMENT GOALS

Currently following online lessons in JavaScript and planning to learn React. No professional experience with REST APIs, automated testing or back-end frameworks yet.
